About me

I am self-taught, as well as a bootcamp graduate, full-stack developer. I love what I do and do it with passion, so I decided to continue my studies at the university to improve my skills and qualifications. My goal is to become an excellent specialist in the field I enjoy.

My work is my hobby. I like reading news about new technologies on habr.com, dev.to websites, while practicing my coding skills on codewars.com in my spare time.

I also take care of my health with physical activity. My lifestyle helps me stay efficient throughout the day and contributes to my productivity.

Work experience

Web Developer

Freelance

At the beginning of my career, I started working on my first projects to implement the knowledge gained on courses and university.

Most of my projects are single and multi-page websites for which I used different Front-End Technologies.

Currently, I work in a team on a large project. We are building an online store

All my works can be found in my portfolio.

Telia AS

Müügipetsialist

B2B/B2C Sales consultant

Education

Estonian Entrepreneurship University of Applied Sciences

Web Technologies (2020 - 2023)

Learning to create visual environments and applications, implements interfaces and user experience.
